News Tracker Application:

As our lives are very busy these days, we often feel we need more than 24 hrs. That's not possible but reducing the time by changing the conventional method of reading news can help. Only read what you feel is relevant and save your time. We can search our needed news to know about the information. This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.… as on official websites.
